Finance Data Analytics and Reporting

Finance DART Overview
Finance Data Analytics and Reporting Team (DART)

A team of functional, data analytics and finance reporting experts that will support you with the on-going development, enhancements, maintenance, governance, security, and administration of the finance reporting environment.

Vision
Empower the Rutgers finance community to be able to transform data and insights into actionable decisions for improved outcomes through enhanced reporting and analytics.

Mission
A dedicated team of experts that provides the services, solutions, and technology to deliver the information and insights that enables Rutgers executives, faculty, and staff to make data driven decision-making a reality.
